

Quality Policy Statement

EPIC Sustainability Services Private Limited is committed to perform as per the relevant accreditation and standards bodies guidelines and rules on a constant basis.

We aim to promote and encourage continual or continuous improvement of the quality of Validation and Verification/ Certification and other related services.

We are committed to conduct the Validation and Verification/ Certification services impartially and effectively manage conflicts of interest to ensure its objectivity.

As a fundamental and integral part of our business strategy, we aim to conduct our business by maintaining a quality management system in conformance with the latest rules and guidelines of the relevant accreditation and standards bodies. We undertake to effectively manage our customers interaction, train our staff and ensure quality of our certification services by being committed to the accreditation and regulatory bodies' requirements whose approval we secure and maintain.

We are committed to safeguard the confidentiality of information obtained or created during the course of Validation and Verification/ Certification functions except where, any rule or decision of accreditation and standards bodies requires them to be publicly available.

We are committing ourselves to a strategy of continual improvement in all our processes. We will strive to ensure that our audited projects meet the intent of their GHG programs and standards by employing rigorous auditing methodology. Our team adheres to the directives of the relevant accreditation and standards bodies and related program procedures and requirements from time to time.

This policy is communicated to all employees including external resources as appropriate and the same will continue to be available through our company website.
